OFF HIGHWAY TYRES

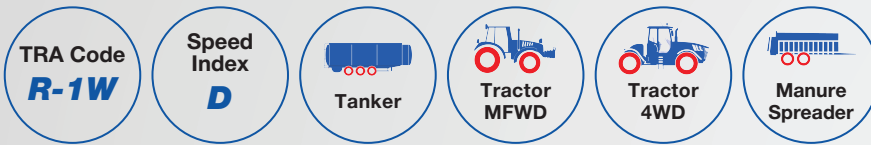

**BUILT FOR
HIGH TORQUE APPLICATION
IN HHP TRACTORS**

AR 2000
HHP TRACTOR RADIAL

AR 2000

- Optimized lug design for modern HHP tractors to deliver high traction in field for hard pull applications.
- The lug overlap in the center offers ride comfort at high-speed transport applications on the road.
- Robust fabric belted construction for long life & durable performance.
- Special high wear resistance compound designed for demanding **on & off** road agriculture applications.

FEATURES & BENEFITS

Excellent Rolling Behavior

Longitudinal high angle lugs & more rubber area in contact with road provide excellent rolling behavior

Optimized Tread Pattern Geometry

- Provides superior traction under heavy loads
- Ensures strong lateral grip for stability on slopes

Tie Bar @ Centre Circumferentially

Tie bars provide stability to lugs and helps reduction of lug shuffling

Optimum Traction Self- Cleaning

- Optimized tread pattern ensures maximum grip on various surfaces, especially in agricultural or off-road conditions.
- Eject mud, soil, and debris efficiently, preventing clogging and maintaining traction

Robust Construction

- The polyester construction provides excellent dimension stability
- Maintains stability at higher speeds

Better footprint area for excellent soil protection

The radial construction along with the new design maximize the footprint area for excellent soil protection and traction on slopes and ensure performance on wet surfaces, reducing slippage

ABOUT TVS EUROGRIP

A foremost off-highway tyre manufacturer, part of TVS Mobility Group - one of India's largest auto ancillary conglomerates.

Have been manufacturing and exporting tyres to more than 85+ countries since the early 1990s.

Comprising a portfolio of over 1000+ products and expanding the range for markets worldwide.

Specializing in agriculture, construction, industrial and OTR segments.

World-class products with superior design and engineering.
