# TIGERTRAC FL 900 ROBUST FLOTATION TYRE FOR AGRICULTURE TRANSPORT

**FL 900**  
**FLOTATION RADIAL**

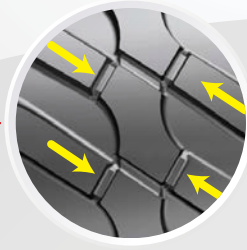

# FL 900

- FL900 is a textile belted flotation radial for light duty agriculture trailers, tankers & implements.
- Designed with a deep shoulder tread combined with a continuous block in the centerline provides smooth roadability & mobility on the field, which enhances overall on & off-road performance.
- It's proven non-directional tread design with ideally spaced lugs offers excellent self-cleaning properties.
- Optimized tread compound for agri-transport ensures high wear resistance as well as traction in the field.

# FEATURES & BENEFITS

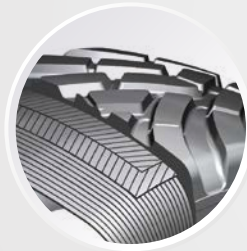

## Non-Directional Lugs

The ideally spaced and angled non-directional lugs provide efficient self-cleaning and traction on wet and un-even underfoot conditions

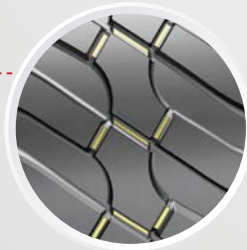

## Pattern Design

Tread pattern design considering equally distributed rubber area with a large contact patch, this tyre offers max flotation and soil protection

## High Wear resistance

Tread compound specially developed for flotation tyres ensure high wear resistance as well as excellent traction on road

## Better Roadability

The thick central blocks provide continuous ground contact, reducing rolling resistance and enhancing life on hard surfaces

## Block-n-Lug Design

Its block-n-lug design provides optimal performance both, in the field and on the road. Excellent puncture resistance and optimized load distribution

## Superior Footprint & Low Soil Compaction

Broader tread width provides superior footprint distribution and that allows low soil compaction and improved stability on and off the road.

# ABOUT TVS EUROGRIP

A foremost off-highway tyre manufacturer, part of TVS Mobility Group - one of India's largest auto ancillary conglomerates.

Have been manufacturing and exporting tyres to more than 85+ countries since the early 1990s.

Comprising a portfolio of over 1000+ products and expanding the range for markets worldwide.

Specializing in agriculture, construction, industrial and OTR segments.

World-class products with superior design and engineering.
